

REMARKS

Applicants provide as a separate part of the amendment a substitute "Sequence Listing." In addition, Applicants submit herewith a computer readable form (CRF) copy of the "Sequence Listing."

The Sequence Listing has been amended to comply with the Notification of Defective Response by identifying the source of genetic material for artificial sequences.

The Sequence Listing has been further amended to correct a typographical error in SEQ ID NO.: 5 in the originally-filed sequence listing. Support for this change is found on page 28, lines 21-22 of the specification, wherein the correct nucleotide sequence for SEQ ID NO.: 5 is recited.

Accordingly, the Applicant respectfully submits that the specification is now in compliance with 37 C.F.R. § 1.821 through 1.825. No new matter has been added by way of these amendments.

Respectfully submitted,
ALBERT WONG
